

Aerial Lift Bucket Liners

& Accessories — Product Catalog

50kV & 70kV TESTED

PERFORMANCE AT ANY HEIGHT

CPI develops strong, lightweight components for aerial lift equipment. Engineered for safety and reliability, our products support operations in challenging environments, ensuring your equipment performs at any height.

CPI also manufactures high-dielectric bucket liners that enhance operator safety and extend the life of aerial lift equipment.

THE CPI DIFFERENCE

Rapid Response & Personal Touch

We're not just fast; we're lightning in a bottle. Our team works closely with you to craft solutions that are as timely as they are extraordinary.

Radical Transparency

No smoke, no mirrors, just clear communication every step of the way. Think of us as your co-conspirators, keeping you in the loop as we heat up your masterpiece.

Innovative Quality & Flexibility

Whether it's a wild prototype or a perfectly engineered product, we tailor our designs to meet your exact needs with unmatched creativity and flair.

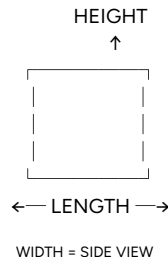

SAFETY COMPONENTS BUILT TO PERFORM

- Seamless, rotationally molded construction for superior strength and consistency
- High dielectric protection to improve operator safety
- UV- and weather-resistant materials for long-term outdoor performance
- Chemical- and impact-resistant surfaces to reduce wear and maintenance
- Custom-fit options for OEM and retrofit aerial lift buckets

BUCKET DIMENSIONS & COMPATIBILITY

All liners offered in **50kV testing (standard)** and also **70kV**. Dimensions in inches.

Part #	Width"	Length"	Height"	Notes
L2439	24	24	39	
L2440	24	24	40	
L2442	24	24	42	
L2442S	24	24	42	With Step
L2941	24	29	41	
L3039	24	30	39	
L3042	24	30	42	
L3042S	24	42	42	With Step
L4242	24	42	42	
L4242S	24	42	42	With Step
L4842	24	48	42	
L4842B	24	48	42	Variant B
L4842S	24	48	42	With Step

ACCESSORIES

Naming Convention Note

Example: L2442 = 24" Width × 24" Length × 42" Height

Part #	Description	Dimensions
SP20T	Fiberglass scuff pad for a 2440 liner	
SP24	Fiberglass scuff pad for a 2442 liner	
SP24S	Fiberglass scuff pad for a 2442S liner	
SP30	Fiberglass scuff pad for a 3042 liner	
SP30S	Fiberglass scuff pad for a 3042S liner	
SP42	Fiberglass scuff pad for a 4242 liner	
SP42S	Fiberglass scuff pad for a 4242S liner	
SP48	Fiberglass scuff pad for a 4842 liner	
SP48S	Fiberglass scuff pad for a 4842S liner	
Cover	Bucket Cover	29" x 34"
Tool Tray	Tool Tray	16" x 24.5" x 9.75"

Compatible with a variety of aerial lift and utility fleet applications
